### Coastal Region EOC

Normal Operations

### Southern Region EOC

Level 2

### Phase II Activation of the Heat Contingency Plan

Phase II actions of the California Heat Contingency Plan have been activated as of 07/23/18. These actions are taken as a result of the issuance of a Special Weather Statement by the National Weather Service predicting an Excessive Heat Warning for an Operational Area (OA) or power outages during warmer-than-normal weather conditions.

- Hot temperatures continue into the weekend for portions of the northern and central Sacramento Valley and surrounding foothills and portions of the northern San Joaquin Valley.
- Excessive Heat Warnings and Heat Advisories remain in effect through Sunday evening for portions of Southern California.

## INLAND REGION (Continued)

### Carr, Vegetation Fire, Shasta County (Continued)

#### **Critical Infrastructure (Continued)**

- AT&T
  - 1 site down, 2 sites offline, one confirmed burned over.
  - Whiskeytown is offline, but unknown reason because unsafe conditions. West Redding is burned over and offline. We are prepping to bring in a temporary COW and new transport, once it is safe to return to the area.
  - AT&T is working on adding more capacity and optimizing the site covering the Redding Airport.
- TCOM: MIGU-3 Deployed in Support of State Staging Area at Redding Airport.
- Iron Mountain Superfund Site
  - Iron Mountain Mine is impacted and the treatment plant is currently running on generators. They are in touch with Cal Fire and they had two engines at the facility last night, defending the treatment plant. The plant represents about a \$500M investment for EPA, so we consider it a high priority asset and have communicated that to the Carr Fire UC.
  - Iron Mountain has about 10 day capacity to hold AMD and there is also a lot capacity above the Spring Creek Debris Dam. SPDD gates are now closed. If there has to be a release from the SCDD, BLM will meter the release so that impacts to the upper Sacramento are mitigated as much as possible
- City of Redding – Water Treatment Plant
  - A potential threat was identified at the Clear Creek CSD water treatment plant due to surrounding fire. There is 1 full one-ton cylinder and 2 empty one-ton cylinders that contain chlorine gas. Unable to get confirmation on status of burn and fire is aware of the chlorine hazard. More information to follow in the morning.

#### **Health and Medical**

- Patients' Hospital of Redding has closed due to the evacuation order. All patients have been discharged and none needed to be evacuated. All staff members have been sent home.
- Vibra Hospital and Skilled Nursing Facility in Redding is being evacuated.
- Mercy Medical Center Redding has evacuated neonatal patients to a sister facility. No other patients were evacuated.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

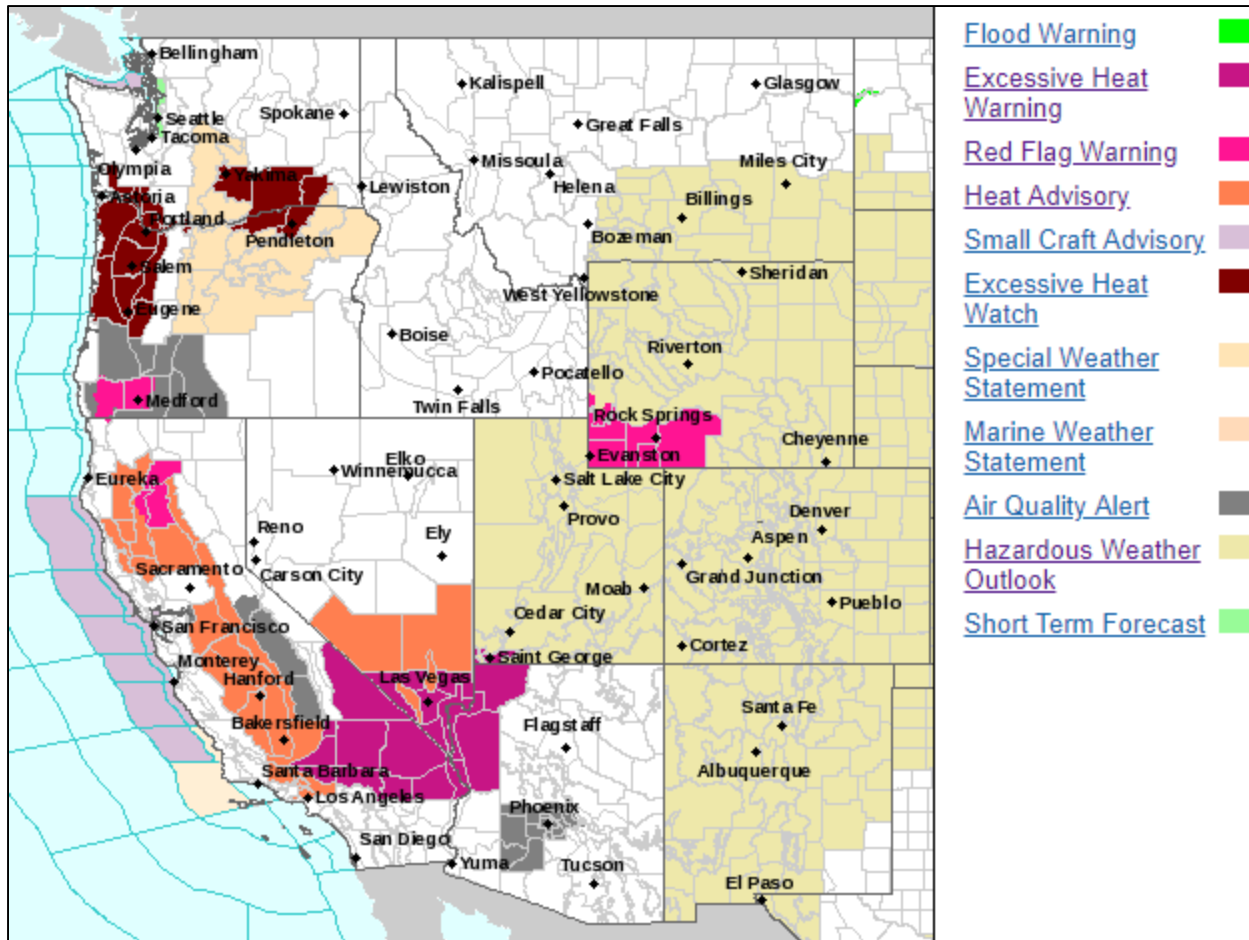

Hot temperatures continue into the weekend for portions of the northern and central Sacramento Valley and surrounding foothills and portions of the northern San Joaquin Valley. Smoke will continue to be an issue over the northern valley and Sierra. A gradual decrease in high temperatures is expected early next week; however, temperatures will remain above average. A Red Flag Warning is in effect through Monday morning for the Carr Fire area in Shasta County, due to very low humidity and well above normal temperatures. Critical fire weather conditions are expected both this afternoon and evening as well as tomorrow afternoon and evening with breezy winds and low humidity in portions of far northern California. A Heat Advisory remains in effect for portions of the northern and central Sacramento Valley and surrounding foothills and portions of the northern San Joaquin Valley. Afternoon temperatures will not be as hot Wednesday through the end of next week.

## **SOUTHERN CALIFORNIA**

Strong high pressure will continue the extended period of above normal temperatures across the region through next week. Excessive Heat Warnings and Heat Advisories remain in effect through Sunday evening for portions of Southern California. Elevated to brief critical fire weather conditions exist through at least this weekend due to continued hot and dry conditions. Highs will be well over 100 degrees in the hottest valleys, mountains, and deserts with minimum humidities generally ranging between 10 and 25 percent. Elevated fire weather conditions will continue today for the mountains and deserts of southwestern San Bernardino County with hot daytime temperatures and low humidities with gusty south winds to 30 mph in the afternoon and early evening. Hot temperatures will potentially continue into early next week across interior sections, with the possibility of monsoonal thunderstorms across the local mountains.
